Work Experience

Web Developer/ Designer Intern

Oct. 2022-Present

Haynes International, Inc.

Indianapolis, IN

- Responsible for making coding updates to the company website on the internet, as well as the employee site on the intranet using HTML / CSS and Javascript. Made continuous content and styling updates as they were delivered to me using a CMS (Sitefinity).
- Worked on site migration from one CMS to another, as well as attended multiple meetings with a vendor on site redesign and development.
- Allocated a minimum of one hour every day to developing JavaScript/ React / Bootstrap skills.
- Led research for new ways to manage the website, UX topics for web design, and ways to implement bootstrap on the current website.
- Increased social media following through an increase in ads, as well as platforms used.

Qualifications/ Skills
